

NOTICE

SOFT SKILLS

India's young brigade contributes 67% of the total population. The roles of the higher education institutes are crucial to nourish the young minds. Asansol Girls' College, the only girls' college in the city of Asansol, is dedicated to developing the students as the best human resources for the nation. The college advocates the all-around development of young minds. 2nd week of December, 2022 college will introduce a soft skill development course, where students will be able to learn every day communicative English, interview skills, group discussion, presentation skills, importance of body language, development of confidence. Kindly contact Dr Manika Saha, Dept. of Geography for further details.

COMMUNICATIVE ENGLISH

The institution is keen on introducing a short term course on Communicative English considered as the dire need of effective communication in the era of globalization. The course is designed to enhance the speaking skills among the students so that they face no problems while communicating in interviews, presentation or in any public place. By joining this course students will learn the pronunciation of words, their meanings, functional grammar, sentence construction which will help them then to express their thoughts and ideas in English language with ease and proficiency. 2nd week of December, 2022 college will introduce the course. Kindly contact Dr Manika Saha, Dept. of Geography for further details.

ICT

The college is planning to offer a certificate course on Information and Communication Technology to enable the students in the essentials of ICT and prepare them for the world of tomorrow. This course aims to provide the students with a fundamental knowledge of the subject. This course will focus in developing the basic skills required to operate in any IT enabled environment. Furthermore, it will prepare the students to be equipped with digital collaboration, productivity, communication and leadership. 2nd week of December, 2022 college will introduce the course. Kindly contact Dr Manika Saha, Dept. of Geography for further details.
